

LYDIAN CAPITAL

OPEN POSITION

Title: Research Scientist

Commitment: Full-time

Qualifications: Advanced degree in quantitative field

Contact: careers@lydian.capital

About us

We are a small team of researchers from elite universities with backgrounds in computer science, mathematics, and algorithmic trading. Based in New York, we are applying rigorous statistical models to capture alpha across the most liquid cryptocurrency markets. We are looking to grow our tight-knit team by hiring exceptionally talented and intellectually curious people who will continue to foster our collegial culture while providing new insights into the highly complex and dynamic cryptocurrency ecosystem. Our office is a short walk from Madison Square Park, and we work in an open workplace with a fully stocked kitchen.

Position Description

We seek a highly motivated individual to join our team and assist in the development of our models and trading platform. Candidates must have a strong background in at least one of the following fields:

1. statistics and machine learning
2. high-performance computing
3. algorithmic trading

Experience in trading cryptocurrencies is a strong plus, but not required. Compensation package includes competitive salary and benefits.
